SUMMARY

Reliability engineer with seven years of production ownership, most of it spent making paging quieter and recoveries faster for teams that ship every day.

EDUCATION

American University of Beirut

Graduated June 2018

Bachelor of Engineering in computer and communications engineering, with a final year project on distributed tracing for message queues.

TECHNICAL SKILLS

Python and Go for tooling, Terraform for infrastructure, Prometheus and OpenTelemetry for instrumentation, and enough SQL to answer the questions the dashboards refuse to.

ADDITIONAL EXPERIENCE

Teaching assistant, Faculty of Engineering

2017 - 2018

Ran the weekly laboratory session for the operating systems course and rewrote the grading scripts the department still uses today.

LANGUAGES

Arabic as a native language, English at full professional level, and French at a working level for client correspondence.
